JOS. H. BLACK,

SON & CO.

HIGHTSTOWN,

NEW JERSEY

Advice to Correspondents

Address all letters, JOS. H. BLACK, SON and CO., (not to individuals)

HIGHTSTOWN, N. J.

Remit by Money Order on Hightstown, N. J., Registered Letter, Draft, or Express Money Order.

Directions for Ordering.—Write your name and address plainly, never omitting to give Post Office address, County and State. No matter how often you write, follow the above directions. Always state distinctly the size and grade of stock ordered, as per the grades given in this Catalogue. We cannot change the grades from those given. **Be sure to give directions how to ship, whether by Mail, Express or Freight.** When these conditions are not complied with, we shall use our own judgment and ship the way we think best. Keep correct copy of the order so that when the stock arrives you will know exactly whether or not you get that which you have ordered.

Prices in this Catalogue do away with all previous quotations. The prices are for the quantities named, but fifty and five hundred will be supplied at hundred and thousand rates, respectively. In ordering small fruits, single plants of a variety cannot be supplied at ten rates. Payment invariably in advance. Goods sent by express C.O.D. only when one-half of the amount is sent with the order.

Packing.—All goods are packed free. Notwithstanding this fact, we use the utmost care and pack according to the distance and to our customer's best interest. Everything is labeled.

Shipping.—We deliver all goods free at Freight and Express office at Hightstown, after that they are out of our control and we are not responsible for them. State plainly to what point goods should be sent.

Claims.—All claims must be made immediately upon receipt of goods, at which time they will be carefully considered and adjusted.

Replacements.—With the kinds of stock we send out there is none necessary unless the soil or the weather or transportation company is to blame and you cannot expect us to make good these kind of losses. The man who agrees to replace such losses either does not or charges you in the first price many times what replacement by us would cost.

Shipping Season.—Our packing season commences in the Fall at 20th of October, and lasts as long as safe to ship, and in the Spring about March 1st, and continues until about the 15th of May.

DISTANCE TO SET APART

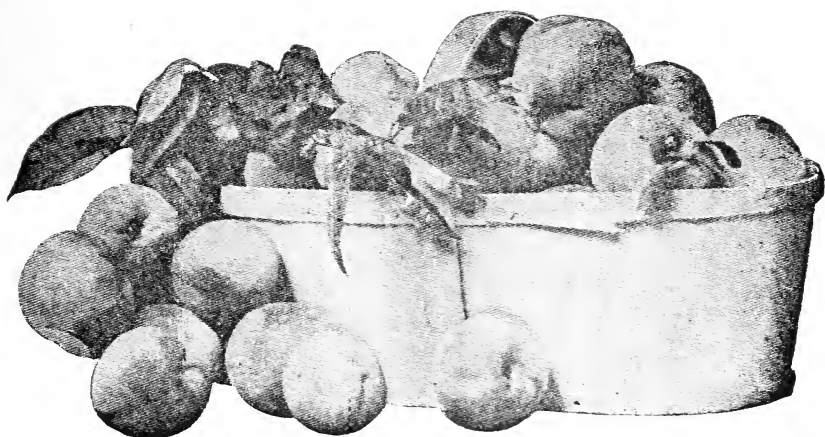

Apples.....	30x30 ft.....	48 trees per acre
Pears, Std.....	20x20 ft.....	110 trees per acre
Pears, Dwf.....	12x12 ft.....	300 trees per acre
Peaches, Plums and Apricots.....	18x18 ft.....	135 trees per acre
Strong-Growing Cherries.....	20x20 ft.....	110 trees per acre
Duke and Morello Cherries.....	16x16 ft.....	170 trees per acre
Grapes.....	10x16 ft.....	275 vines per acre
Asparagus.....	1½x6 ft.....	4,840 plants per acre

Strawberries.....	1 x 3 ft.....	14,520 plants per acre

TO SAVE PAPER

We have decreased the number of cuts and made descriptions as small as possible.

WE ADVISE EARLY ORDERS

because the demand is heavy and the supply available throughout the country is very limited and will be far less than demand, many varieties being out of the market today.

PEACHES

The trees that we offer were grown from Natural North Carolina Seed on ground that has not been used for the purpose for twenty years or more and budded from stock that was absolutely true to name and free from all disease.

PRICES FOR PEACH TREES

All trees are one year old from bud.
Send your list for 100 prices.

	Each.	Per 10.
4 to 6 ft., extra, 9-16-in. and up caliper.....	\$ 50	4 00
3½ to 5 ft., first-class, ½-in. and up caliper.....	40	3 50
3 to 4 ft., medium, 7-16 to ½-in. caliper.....	30	2 50
2 to 3 ft., branched, extra well rooted.....	25	2 25
1½ to 2½ ft., whips, straight and good.....	20	1 75

We make no extra charges for boxes, packing nor material.

The list of varieties which follows is arranged in order of ripening as nearly as possible.

The letters after each variety denotes the color of the flesh. (Y) is yellow, (W) is white and (R) is white with more or less red or pink mixed through the flesh.

Varities not otherwise described are freestones.

✓ **Maules Early.** (R)—Ripens two or three days after Mayflower, and three weeks before Carman. In color it is brighter, and its quality is very much better than any other peach ripening within ten days. It begins to bear the second year after planting and we have never seen it miss a crop. It ships well and rots less than any early peach we have ever grown.

✓ **Carman.** (R)—Carman is a very hardy in both tree and bud. It is a regular and heavy cropper. Fruit is almost round, large to very large, of a creamy white color covered on one side with a deep rich blush. Clings slightly. In 1 to 2 ft. and 4 to 6 feet only.

✓ **Miss Lolo.** (R)—It ripens about three days later than Carman, is about the same size and of much better quality. The tree is even hardier in bud than Carman.

The fruit is large, skin tough, flesh tender, juicy and of fine quality. Color is white with red cheek. No. 3 to 4 ft. in stock.

✓ **Arp Beauty.** (Y)—Early, a fine yellow peach ripening five weeks before Ellberta. Skin yellow with a beautiful bluish; flesh yellow, juicy sweet, rich and of excellent quality; clings slightly. In 1 to 2 ft. and 3-4 ft. only.

✓ **Hiley (Early Belle).** (R)—Seedling of Belle of Georgia; like its parent in size, color and beauty; ripens earlier; a large, rich, creamy white peach, with rich blush on sunny side; fine quality good shipper. In 1 to 2 ft. and 3 1-2 to 5 fo. only.

Champion. (R)—One of the largest if not the very largest peach ever grown. Ripens just after Miss Lolo and with Hiley. Its season of ripening and its productiveness makes it a valuable variety. Color is cream white with a red cheek, flesh is white with a light yellowish tint and of the very finest quality.

Crawfords Early. (Y)—An old well known variety which does exceptionally well in some localities. Is hardy in bud and bears large crops of medium size peaches, ripening with Alt. Rose and before Elberta. In 4 to 6 ft. only.

Niagara. (Y)—In quality it is equal to the best, being sweet and juicy. It is almost entirely covered with a rich red.

Belle of Georgia. (R)—The Elberta furnished a new type of early, regular and heavy bearing yellow peaches which has never been equalled for shipping and profit. The Belle of Georgia is just as distinctive in the white varieties. It is of large size, uniform in shape and very showy. Quality is good to excellent. It comes into bearing young and is very prolific and picks over an extended period, finishing up just as Elberta begins.

Hale. (Y)—This is the must advertised variety originated by J. H. Hale and sold to Wm. P. Stark. We saw this variety fruiting and liked it very much. It is a very large, round, yellow fleshed peach that is highly colored and ships well.

Early Elberta. (Y)—(Gold Finch.)—A more handsome peach than the Elberta. The yellow on shaded side is very bright and clean appearing. Ripens a few days ahead of Elberta and in most characteristics similar to that variety.

Elberta. (Y)—Very large, skin golden yellow and where exposed to the sun, faintly striped with red; flesh yellow, very fine grain, juicy rich, sweet and splendidly flavored; tree very prolific and presents a handsome appearance and a luxuriant growth. It is a perfect freestone and one of the most successful market varieties. Does well everywhere.

Foxes Seedling. (R)—After Chairs Choice or Crawfords Late there is but one really good peach that comes before Iron Mountain. Foxes Seedling fills this gap of five or six days perfectly. It is a long lived tree and begins bearing on the 3rd or 4th year. It is a heavy cropper and about as hardy in bud as Champion. Fruit is rather longish and pointed, having a white skin shaded with a bright red on the sunny cheek. Flesh is fairly juicy and one of the sweetest and best quality of all peaches. No orchard is complete without some Foxes.

Iron Mountain. (W)—The first time we saw this peach we were determined to have some of the stock. We procured it and in no year since that time have we been without peaches. For two years Maules Early and Iron Mountain were the only trees giving us any fruit. Upon its introduction many kinds were sent out under the name of Iron Mountain and some claimed it was Brays Rareripe, others that it was Fords Late, all of which was detrimental to the reputation of the true variety. We have made more money per tree from it than from any other variety and although its lack of high coloring is slightly against it yet it is becoming so well known for its productiveness, hardness, keeping and eating qualities that it is a close rival in reputation to Belle of Georgia and Elberta. For New Jersey and Pennsylvania it is a most profitable peach and always has been. It is the best canning peach that we have ever tested. In size it is very large, is oblong in shape and pure white in color except when slightly tinted with red and ripens just before frost comes.

PLUMS

The past few years have proven beyond a doubt that there is good money to be made from plums. Scale, borers, curculio and rot discouraged planters for some years but spraying has overcome all these troubles except the borer which attacked trees budded on peach and Mariana plum. Our trees are budded on Myrabolan trees which are not injured by the borer and is hardier than the other stocks

EUROPEAN PLUMS

Prices.—2 year, 4 to 6 ft., extra fine, 50c each; \$4.50 per 10.

German Prune.—Fruit oval in shape, nearly two inches long, of good quality for the table, and much esteemed for drying and preserving, hangs long on the tree and is firm, sweet and pleasant.

Grand Duke.—A very handsome plum especially valuable for market. It resembles Bradshaw in size and color, being very large and of fine dark violet red.

Green Gage.—Small, considered the standard of excellence. Mid-season.

Reine Claude.—A large, fine variety, skin greenish yellow, covered with a thick bloom, flesh yellow, juicy, melting, with a rich sugary, excellent flavor.

Moore's Arctic.—Size medium, skin purplish black, with a thin blue bloom; flesh greenish yellow, juicy, sweet.

Imperial Gage.—Rather large, oval greenish; flesh juicy, rich and delicious, and on account of the tree being a good grower, is preferred by many to the Green Gage, but ripens early.

Shropshire Damson.—A medium size, dark purple variety; esteemed for preserving. Very productive and ripens late.

Lombard.—Oval; violet-red; flesh yellowish, juicy and pleasant; a great bearer.

JAPAN PLUMS

Prices.—2 year, extra large, 60c each; \$5.50 per 10

Abundance.—Beautiful lemon yellow, nearly overspread with bright cherry, oblong, flesh orange color, melting, rich and highly perfumed. Abundant and unusual bearer.

Burbank.—The fruit is large, nearly globular, cherry red, flesh a deep yellow, with a peculiar and agreeable flavor.

Satsuma.—Large, purple and red, thick bloom, flesh blood red, firm and juicy, splendid canner.

Shiro.—Fruit is medium to large, very uniform in size, clear light yellow, with thin white bloom, flesh firm yet juicy, pleasant, rich, sub-acid, ripens two weeks before the Burbank.

Wickson.—Fruit remarkably handsome, deep maroon red, stone small, flesh fine texture, firm sugary and delicious.

APPLES

Never has the apple grower been surer of profits than at the present time. Today, spraying and proper care of orchards, with modern methods of packing and marketing have revolutionized the whole industry. The great northwest taught us how and now greater east is, with its better quality and closer markets, threatening to be too apt a pupil to please the tutor.

As to distance apart for planting, the different varieties need more or less room according to their habits. Baldwins and Staymans are types of trees needing thirty-six feet spread while such kinds as Duchess and Transparent could do nicely with sixteen to twenty feet.

The price of apples for the past years has been good enough to prove that an apple orchard is as good paying proposition as the land owner can have.

It requires less work than any other crop and is distributed over a longer period.

PRICES ON APPLE TREES

(For the past three years the nurserymen have had a surplus and the trees were sold below the cost of growing and handling. This year the supply is below normal and the prices will allow us a legitimate and fair profit and at the same time be moderate in price to the purchaser.)

	Each.	Per 10
Extra fine, 2 and 3 year, 5 to 7 ft., 11-16 in. caliper...	\$.60	\$5.00
First-class, 2 year, 4 to 6 ft., 5-8-in. caliper.....	.50	4.00

Staymans, Delicious, Wealthy, Rome Beauty, .

SUMMER APPLES

Early Harvest.—Medium size, pale yellow, early, mild, excellent subacid.

Gravenstein.—Large, bright yellow, roundish, splashed with red and orange.

Liveland Raspberry.—A fine early apple, bearing very young. A good shipper of fine quality. A white apple almost covered with stripes and splashes of bright red.

Red Astrachan.—Large, nearly covered with crimson, acid, very early.

Starr.—A large apple, with yellowish smooth skin marked with a faint blush and numerous russet dots; flesh yellow, fine, very tender, crisp, juicy and of fine quality.

Yellow Transparent.—Medium, yellow, smooth, waxen surface.

Williams Early.—Medium to large; oblong, red, a handsome dessert apple. A very profitable market variety.

EARLY AUTUMN VARIETIES

Duchess of Oldenburg.—A large, beautiful Russian apple; roundish; streaked red and yellow, tender, juicy and pleasant.

Fall Pippin.—Very large, yellow, tender and best quality.

Wealthy.—Fruit medium, roundish, skin smooth oily, mostly covered with dark red; flesh white, fine, juicy, vinous, sub-acid, very good. Tree very hardy, a free grower and productive.

English Codling.—Very large, yellow with red cheek, handsome, sub-acid, good, productive, profitable; extra fine for cooking and market.

LATE FALL AND WINTER VARIETIES

Baldwin.—Large, roundish, dark red, fine flavor, sub-acid, crisp and juicy.

Gano.—Large, bright red, fine grained, sub-acid, excellent bearer.

Grimes Golden.—Medium size, yellow, highest quality, rich, tender. Our most profitable late fall apple. It bears young and regularly. Its large crop of fine apples always commands good prices and the demand far exceeds the supply.

Golden Russett.—Medium size, dull russet with a tinge of red; flesh greenish yellow, crisp, juicy and high flavored. A good keeper.

Hubbardston Non-Such.—Large, roundish, yellow, striped and splashed with red; very rich.

Jonathan.—Medium, deep red, tender, juicy, and rich; one of the best apples for family and market.

King David.—A most beautiful rich, deep red shaded with a darker red. Of finest quality and if picked early is a good keeper.

King of Tompkins Co.—Very large and fine, red striped, sub-acid.

Mammoth Black Twig.—(Paragon)—Fruit large, roundish, somewhat flattened, color dark red, slightly streaked, flesh firm, yellow, crisp, aromatic, sub-acid and juicy.

McIntosh Red.—Medium size, nearly covered with dark red; flesh white, fine, very tender, juicy and refreshing. A good annual bearer of fair, handsome fruit. Resembles the Fameuse.

Nero.—Medium, red, good and regular bearer, good keeper, fine dessert apple.

Northern Spy.—Large, striped with dark crimson.

Rhode Island Greening.—Large greenish, yellow, tender, juicy.

Rome Beauty.—Large, yellow, shaded with bright red, a very profitable variety. One of the surest croppers and best keepers.

Smokehouse.—Large, shaded with bright red, firm, juicy and crisp, fine quality.

Delicious.—A large apple of most pleasing color, being a rich red with just enough yellow to be pleasing to the eye. The quality is of the best, being juicy, fine grained and truly *Delicious*.

Staymans Winesap.—This apple should not be confused with the old Winesap. It is double the size and much finer quality. In color, it is a dark red with faint stripings. A heavy young and annual bearer of the very best quality of fruit, which pleases everyone and will keep. We consider it the best apple that we have ever grown for home use and market.

Winter Banana.—Large, golden yellow with a red cheek, firm, fine grained and of best quality of eating and cooking. Late fall and early winter.

White Ohio Pippin.—Large, light yellowish green apple, a splendid keeper, quality good. Resembles Newtown Pippin but is larger.

- ✓ **Winesap.**—Medium, deep red, firm crisp, fine quality, good keeper.
- ✓ **Wolf River.**—Large, striped and splashed with red, juicy. A show apple of poor quality, but generally sells well because of its size.
- ✓ **Yellow Bellflower.**—Large, yellow, rich, crisp, juicy, sprightly acid flavor.
- ✓ **York Imperial.**—(Johnson's Fine Winter.)—Medium to large, yellow, shaded red,

CRAB APPLES

- ✓ 3 to 5 feet, 60c each; \$5.00 per 10.
- ✓ **Florence.**—Medium, oblong, striped red and yellow, very beautiful, one of the best crabs.
- ✓ **Lady Elgin.**—Similar in size and appearance to the Lady Apple; flesh juicy and good, tender. An early and prolific bearer.
- ✓ **Martha.**—The ground is a bright yellow, nearly overspread with bright red.
- ✓ **Transcendant.**—Large, roundish, rich crimson, white bloom, flesh crisp.
- ✓ **Whitney's No. 20.**—Large, almost red, striped; flesh yellowish white, very juicy, sub-acid, excellent. Tree vigorous.

MULBERRIES

- ✓ **Price.**—4 to 6 feet, 60c. 2 to 4 feet, 50c each.
- ✓ **New American.**—Equal to Downing in all respects and a much hardier tree. Vigorous grower, very productive, the best variety of fruit, ripe from middle of June to middle of September.
- ✓ **Downing Everbearing.**—Highly ornamental for street or lawn, yielding an abundant supply of very large, black, handsome berries, sweet, rich and excellent.

PEARS

The planting of this fruit has been neglected for many years past and now we find a shortage in supply and consequent high prices. Such varieties as Clapps Favorite, Bartlett and the much abused Keiffers have been good money makers in the past and will continue to be. The Keiffer on the light, sandy or gravelly soil will give better returns in profits than any other crop. Severe pruning and thinning and proper care of the fruit being the only requirements beyond very ordinary cultivation and fertilizing.

Price on Pears.		Each.	Per 10.
3-4 inch caliper, 5 to 7 feet		\$.60	\$5.00
5-8 inch caliper, 4 to 6 feet		.50	4.00
Dwarf varieties, 2 year, marked*		.50	4.00

SUMMER PEARS

- ✓ ***Bartlett.**—Large, yellow, flesh white, exceedingly fine grained and buttery.
- ✓ ***Clapps Favorite.**—Very large, yellowish green to full yellow, marbled with dull red, vinous, melting and rich.

AUTUMN AND WINTER PEARS

- ✓ ***Beurre d'Anjou.**—Large greenish, sprinkled with russet, flesh melting, with a high, rich, vinous, excellent flavor, productive, succeeds well as a dwarf.
- ✓ ***Duchess de Angouleme.**—Very large, dull greenish yellow, streaked and spotted with russet, flesh white, buttery and very juicy, with a rich and very excellent flavor; on the young standard trees the fruit is variable, but as a dwarf it is always fine.
- ✓ **Flemish Beauty.**—Large, pale yellow, much russeted, rich, melting and vigorous.
- ✓ **Howell.**—Large, light, waxen yellow, with a fine red cheek; handsome, rich and sweet.
- ✓ **Keiffer.**—Fruit large, to very large, skin yellow, with a bright vermilion cheek; flesh brittle, very juicy, quality good.
- ✓ **Lawrence.**—Medium, yellow, covered with brown dots, flesh white with very much aromatic flavor.
- ✓ ***Seckel.**—Small, rich, yellowish, one of the best and most highly flavored pears known. Best of all pears.
- ✓ **Vermont Beauty.**—Tree hardy and vigorous, early and abundant bearer. Fruit medium size, yellow with red cheek, rich, juicy, best quality.

APRICOTS

We have found some demand for this delicious fruit and while it does not fruit in some sections, in others it bears crops that are much appreciated.

Prices.—(Named varieties.)—4 feet, 60c each; .

CHERRIES

HEARTS AND BIGARREAUS, OR SWEET CHERRIES

Not only are the sweet cherries delicious, but they are profitable if you have large matured trees. Ninety-nine per cent. of the sweet cherries planted fail to mature because they are not budded on the right kind of stock. Years ago when Mazzard stocks were used exclusively no such trouble was experienced. We find but few nurseries use this stock today which accounts for the loss.

In the future we shall use nothing else and while our prices will be higher, there is no comparison otherwise.

Prices on Sweet Cherries on Mazzard Stock

Prices, (except Mercer) extra large 2 year, 60c each; \$5.50 per 10.

Black Tartarian.—An old and popular variety; large, purplish black, juicy, rich, excellent; early.

Gov. Wood.—Large, roundish, depressed at stem; skin light yellow, shaded and marbled with bright red; flesh tender, juicy, sweet and delicious; early.

Mercer.—The fruit buds are harder than any other variety of heart cherries, thus insuring annual crops. Fruit, very large, often measuring three-quarters of an inch in diameter; color, dark glossy red, almost black when fully ripe, having the appearance of being varnished; quality unexcelled for table use or canning; ripens early.

Price.—75c each.

Yellow Spanish.—Large, flesh very firm, juicy and delicious; pale yellow with a bright red cheek in the sun.

Bing.—A black cherry ripening after Tartarian. One of the finest large black commercial cherries grown. Tree is vigorous and productive. Fruit is juicy, sweet and firm.

Napoleon.—Very large, pale yellow or red; firm, juicy, and sweet. A vigorous grower and very productive; one of the best.

Schmidts Bigarreau.—A most promising cherry. Fruit of immense size, of a rich, deep black; flesh dark, tender, very juicy, with a fine flavor. Bears abundantly, and makes a most excellent dish for the table.

DUKES AND MORELLOS,

OR SOUR CHERRIES

Among the Sour Cherries such varieties as Richmond and Montmorency have been planted heavily for years and the returns of course warranted it. There are needs for our entire list. It bears young and very abundantly and when cooked holds its flavor and loses a large part of the acidity.

Prices of Sour Cherries: All varieties, 2 yr., extra, 4 to 6 ft., 3-4 caliper, 60c each; \$5.00 per 10.

May Duke.—Large, dark red, juicy and rich; an old, excellent variety. Productive; early.

English Morello.—Medium to large; blackish red, rich, acid, juicy and good. Very productive. Very late.

Early Richmond.—Medium size; dark red; melting, juicy, sprightly, acid flavor. This is one of the most valuable and popular of the acid cherries, and is unsurpassed for cooking purposes, and is exceedingly productive.

Louis Phillippe.—A large prolific dark red cherry ripening just after Montmorency. Very mildly sub-acid when cooked. The best canning cherry offered.

Large Montmorency.—A large rich, acid cherry, larger than Early Richmond, and fully ten days later.

QUINCES

The Quince requires a deep, rich, moist soil, but if well manured and mulched, they will succeed admirably upon dry ground. The tree is hardy and compact in growth—requiring but little space, productive and comes early into market. Prune off all dead or surplus branches and thin out the fruit bearing too freely.

Prices.—4 feet, extra fine, 50c each; \$4.00 per 10.

Bourgeat.—Strong grower, prolific, hardy. Fruit large, smooth and fine grained.

Champion.—Fruit very large, fair and handsome. Tree very productive, surpassing any other in this respect; bears abundantly while young flesh cooks as tender as the apple, and without hard spots or cores, flavors delicate, imparting an excellent quince taste and odor to any fruit with which it is cooked.

Meeches Prolific.—A vigorous grower and immensely productive, frequently bearing fruit when but two years of age, increasing in quantity yearly to such an extent as to require vigorous thinning to prevent injury to the trees from overbearing. The fruit is large, lively oranges color, of great beauty and delightful fragrance; its cooking qualities are unsurpassed.

Orange.—Large, roundish, bright golden yellow, cooks tender, and is of excellent flavor. Valuable for preserves or flavoring, very productive, the most popular and extensively cultivated of the old varieties.

Rae's Mammoth.—A superb fruit; much larger than the Orange, but of the same form and color. Tree healthy; very thrifty grower. Productive.

NUTS

HARDY INDIANA PECAN SEEDLINGS

These are hardy little trees that will stand the cold as well as the apple and will bear thin shell nuts of very best quality but their size averages much less than the budded varieties. They are transplanted stock and will stand moving.

Prices.—3 feet, transplanted, 25c each; \$2.00 per 10; \$15.00 per 100.

4 feet, transplanted, 40c each; \$3.00 per 10; \$15.00 per 100.

OTHER NUT TREES

Hickory, Shellbark or Shagbark.—To our taste no other nut that grows, either foreign or native, is superior to this in quality. It possesses a peculiar, rich, nutty flavor, excelled by none. The tree is of sturdy, lofty growth.

Prices.—2 to 3 feet, 40c each;

12 to 18 inches, stocky and fine, 25c each; \$2.00 per 10.

Butternut. (White Walnut.)—A large nut, with rough surface; kernel very rich.

Prices.—3 to 4 feet, 50c each; \$4.00 per 10.

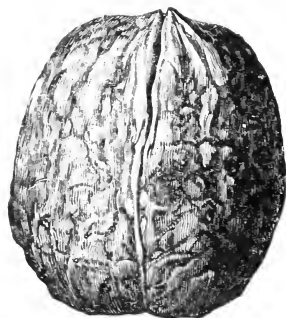

Black Walnut.—A native tree of large size and majestic form, beautiful foliage. Tree is a rapid grower, producing a large round nut of excellent quality.

Our stock have very fine straight stems. Well rooted trees grown from large thin shell, high quality nuts.

Prices.—(Stock has been transplanted.)—50c each; \$4.00 per 10.

4 to 5 feet, extra fine, 40c each; \$3.50 per 10.

English Walnut.—The tree is of fine spreading habit, making it available for shade. Every poultry raiser should use it in preference to other trees as it gives the desired shade and at the same time produces a crop that cannot be eaten or damaged by fowls. The trees we offer are northern grown from northern seed. The nuts will not be as bright in color as those offered at the stores because they have not been cleaned and polished but the quality will be better.

English Walnut

Prices. —Trees twice transplanted.	Each	Per 10.
3 feet, very stocky.....	\$.60	\$5.00
12 to 15 inches.....	.20	1.50

STRAWBERRIES

We quote in 25's instead of dozens because we have them all tied 26 to a bunch and it is not asking too much when we ask you to buy no less than 25 of a kind.

Prices. (For Spring Delivery Only.)—40c per 25; 75c per 100; \$6.00 per 1000 unless otherwise noted.

✓ **Aroma.** (Perfect Bloom.)—A late and very popular berry for all sections. A splendid strong blooming variety to plant beside imperfect blooming sorts. Plant strong, fruit large, uniform and of good color. A splendid market berry.

✓ **Chesapeake.** (Perfect Bloom.)—Late. The fruit is very regular in shape, round, and of most attractive appearance; the quality is good to very good, flesh is firm and fine grained.

Price—\$6.50 per 1000.

✓ **Glen Mary.** (Perfect Bloom.)—One of the most popular sorts, it has become a standard. Foliage is good, berries are large, dark rich red with prominent bright yellow seeds. They are firm and of fine quality, being rich and juicy and a very pleasing flavor. For the fancy market it is only excelled by the Joe.

Joe. (Perfect Bloom.)—**Renamed Big Joe and Joe Johnson** and called a new variety, and while Big Joe really is a fitting name because of its size, Joe Johnson is not, as it was really Joe Black. It is another tribute to this fine variety, to consider it worthy of **two reintroductions** fifteen years after its first appearance.

Season medium to late. Plant is unusually vigorous and long lived, and foliage is clean and healthy. Productive, and carries its fruit well.

Fruit large to very large, and continues large to the end of the season, firm; in form it is obtuse conical and very uniform in size; red with red flesh; quality good.

✓ **Nettie.** (Imperfect Bloom.)—The largest and latest strawberry that we have ever fruited. Plant and foliage exceptionally strong, vigorous, and healthy; flower imperfect; enormously productive; berries very large, bright red. Ripens very late.

✓ **Sample.** (Imperfect Bloom.)—The plant is a strong, vigorous grower, very productive, texture firm, making an excellent shipper. The berries color all over at once, and look very pretty in the package. Large size, mid-season, fine quality, conical shape and regular in form; one of the best for the market.

✓ **Saunders.** (Perfect Bloom.)—An excellent variety and like Joe, succeeds better than any sorts on light sandy soils. Berries are large and of dark glossy red, very firm and of high quality. Plants strong and thrifty, with good foliage and good croppers.

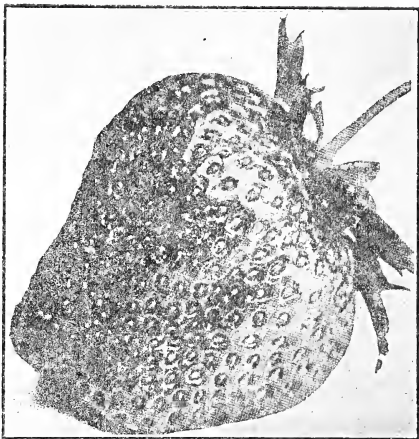

✓ **Senator Dunlap.** (Perfect Bloom.)—Season early to mid-season. The fruit is of good size, regular and attractive in form, deep red in color without and within, firm in substance and excellent in quality.

✓ **Sharpless.** (Perfect Bloom.)—An old variety popular because of its size and sweetness. It is very large and the plants are healthier than all others with the possible exception of Joe.

✓ **Stevens Late Champion.** (Perfect Bloom.)—Plant a strong, vigorous grower, flower perfect. Berry, size and shape of Sharpless. Color, bright red; flesh firm and of the best quality. Productive.

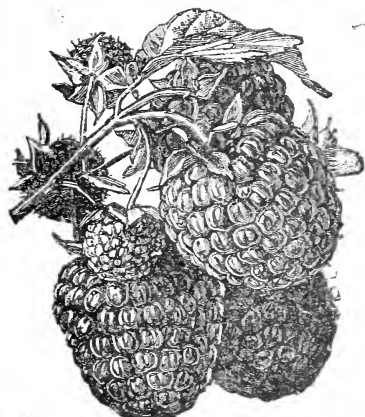

✓ **Success.** (Perfect Bloom.)—Early, large, firm, bright crimson. It is the best early variety that we have ever fruited, being very early and prolific. The plant is exceptionally vigorous and strong.

✓ **Wm. Belt.** (Perfect Bloom.)—Next to Joe we consider this the best flavored of all strawberries. Like Joe it has increased in favor with years and while its foliage has not always been the best, there seems to be a continued improvement each year. If you desire fancy berries for home use or market, this variety should be included in your plantings.

Joe, or Joe Black, or Big Joe
(Incorrectly renamed Joe Johnson)

RASPBERRIES

Cuthbert

✓ **Welch.** (Red).—The plant is exceptionally vigorous, holding its foliage until the wood is fully ripened and matured; this feature insures hardiness. Berry is larger than Miller, brighter and as firm.

Price.—40c per 10; \$1.75 per 100; \$16.00 per 1000.

✓ **St. Regis.** (Red).—It has been called everbearing by some but it hardly bears that out, although it comes nearer it than any other we ever saw. Its principal value lies in its first crop which is equal to any and better than many.

The other crop is on the young wood and runs for quite a time and the berries are large and of fine quality. It bears the first season.

It is worth the prices at which we are offering it as a regular one crop variety.

Price.—50c per 10; \$2.00 per 100.

✓ **Plum Farmer.** (Black).—Plants are hardy, vigorous and productive; the berries large, good in color and quality. It has already been grown in many localities and reports on its behavior are very favorable. The berries ripen very early and most of the crop is produced in one week. The fruit is very large, thick meated and firm, making a good berry to ship to distant markets. A Blackcap.

Price.—50c per 10; \$1.75 per 100; \$15.00 per 1000.

✓ **Cumberland.** (Black).—Strong grower, productive, large berries, quality good, ripens in mid-season, and it should be tried by every fruit grower.

Price.—50c per 10; \$2.00 per 100; \$15.00 per 1000.

✓ **Cuthbert.** (Red).—A strong grower and productive; very large, bright red; fruit firm, of very fine quality, season medium to very late; a good one for market or home use.

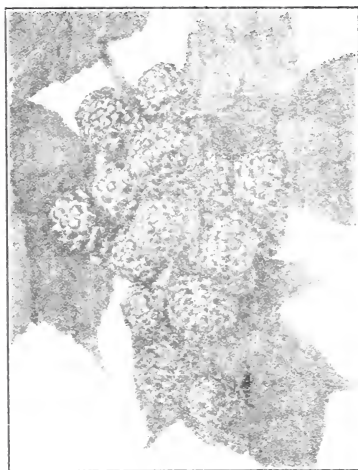

Price.—50c per 10; \$2.00 per 100; \$15.00 per 1,000.

✓ **Scarff.** (Black).—A valuable new variety. In size it equals Cumberland. It makes a large number of strong canes that are clean and free of rust. Being very resistant to drought and disease in production it is beyond anything we have yet tried.

Price.—40c per 10; \$1.75 per 100; \$15.00 per 1,000.

✓ **Kansas.** (Black).—The fruit is handsome, firm and of fine quality. Canes are strong, hardy and prolific, with clean foliage.

Price.—40c per 10; \$1.50 per 100; \$12.00 per 1,000.

Scarff

BLACKBERRIES

✓ **Lucretia Dewberry.**—The fruit, which ripens before blackberries, is often one and one-half inches long by one inch in diameter, sweet and luscious throughout without any hard center or core.

Price.—50c per 10; \$1.50 per 100.

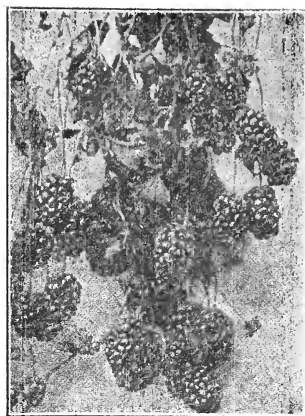

✓ **McDonald.** (Imperfect Blossom.) -- Plant every 3rd or 4th row with Dallas or Lucretia.

The earliest of all Blackberries. Ripens with Red Raspberries.

Prof. L. R. Johnson says: "I feel that, in the McDonald there has arisen the greatest of the blackberry family." The McDonald is three weeks ahead of Eldorado, equaling it in every particular, it surpasses in quality and size. The berries are very large, longish and uniform in size. In quality it is equal to any variety of any season. The plants are extremely vigorous, bearing immense crops, one man harvested 500 bushels per acre. It stands to dry weather perfectly and holds its foliage well. It will hang on the bushes for several days after ripening. The earliness, size, fine quality command for it higher prices than can be had from others. It is as hardy as most blackberries and will stand colder weather than Early King, Early Harvest, Lucretia and Ward and in fact will stand as much cold as the peach tree. The plants will trail during the first year but become upright afterward. For market we know of no berry that will pay as well. For home use it extends the season, being at least a week earlier than Lucretia Dewberry, and being the sweetest of all blackberries.

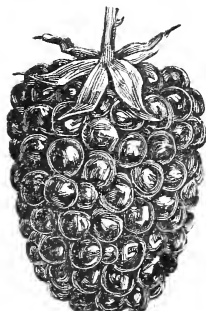

Prices.—50c per 10; \$2.00 per 100.

10 McDonald and	3 Dallas for.....	1 60
100 McDonald and	25 Dallas for.....	3 00
800 McDonald and	200 Dallas for.....	18 00

McDonald

✓ **Dallas.**—Another very early blackberry following McDonald but blooms at same time and therefore is valuable to fertilize that variety. It is very vigorous grower with drooping and thorny vines that produce large crops of big berries of high quality. It has proven to be a good market variety. **Price.**—50c per 10; \$2.00 per 100.

Eldorado

✓ **Eldorado.**—The vines are very vigorous and hardy. The berries are large jet black, borne in large cluster, and ripens well together, they are very sweet, melting and pleasing to the taste, have kept eight or ten days after picking with quality unimpaired.

Price.—50c per 10; \$2.00 per 100.

✓ **Mersereau.**—This is a very large, oval berry and does not turn red after it is picked; flesh sweet, melting, rich, very best quality. Bush strong, vigorous, extra hardy and resistant to disease. It is a most profitable blackberry.

Price.—50c per 10; \$2.00 per 100.

GRAPES

If you want prices by the 100 or 1000 write us for quotations.

This fruit is a general favorite and the housewife can always find use for it in making jams, jellies and grape juice. It will grow wherever it gets the sun for at least half the day. It takes up but little space and requires no care but pruning once each year.

For an outlay of from \$1.00 to \$2.00 you can have all the grapes you can use in from three to four years' time. In planting grapes do not set them deeper than the top of the old wood. Cut all the young wood back to two or three eyes and set a stake beside it for protection. Use no manure or fertilizer when planting but wet the roots by dipping them into water.

We present a list of such varieties as we know will bear well and please.

Prices.—1 year (except Green Mountain), 20c each; \$1.50 per 10.

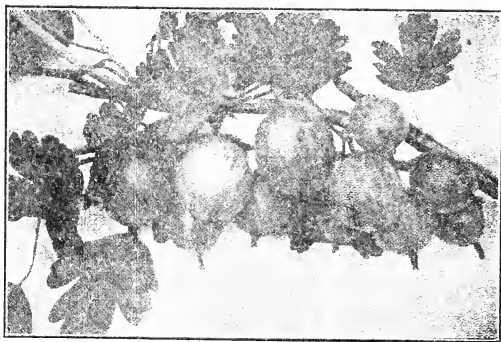

2 year (except Green Mountain), 25c each; \$2.00 per 10.

- ✓ **Brighton.**—Berries medium to large, round, light red to dark crimson in color; flesh tender, sweet, productive. Early.
- ✓ **Campbells Early.** (Black).—Bunch large shouldered. Berry large, nearly round, covered with light bloom blue; adheres strongly to stem; skin does not crack, flesh somewhat pulpy, sweet, with slight aroma, not foxy; quality the same as Concord. It ripens very early; a fine shipping grape. Vine a good grower.
- ✓ **Catawba.**—Dark red when fully ripe. Bunches large; berries medium to large, with rich flavor.
- ✓ **Concord.**—A well known large purplish black grape, vines remarkably vigorous.
- ✓ **Delaware.**—Small, light red, skin thin, very juicy, sweet and sprightly; one of the finest flavored hardy grapes.
- ✓ **Elvira.**—White. Bunch and berry medium, very compact; vine vigorous, strong, healthy grower and very productive.
- ✓ **Empire State.**—Bunches large, shouldered; medium to large, roundish oval, color white; flesh tender, juicy, rich and sweet.
- ✓ **Green Mountain.**—Clusters and berry medium, greenish white, thin skin, fine quality, tender, sweet, strong grower, exceedingly hardy. Very early.
- Price.**—1 year, 30c each.
- ✓ **Lutie.**—Earliest red grape in the market; vines hardy; a strong grower; bunches solid, berries large; color light chocolate; flavor equal to Delaware; sweet and rich.
- ✓ **Moore's Early.**—Very early; bunches large, berry round and large, color black with a heavy blue bloom; of good quality.
- ✓ **Moore's Diamond.**—White; bunch large, compact, shouldered; berries large, round, skin thick, firm, flesh tender, juicy, with but little pulp.
- ✓ **Niagara.**—Bunch is very large and compact, sometimes shouldered; berries large; light greenish white; semi-transparent; skin thin, quality good.
- ✓ **Pocklington.**—The fruit is a light golden yellow, juicy and sweet, bunches very large, sometimes shouldered; berries very large.
- ✓ **Worden.**—Black; bunch large, sometimes shouldered, compact; berries very large, skin thin. One of the best, if not the best.

GOOSEBERRIES

Prices.—(All varieties)—1 year olds, No. 1, 15c each; \$1.25 per 10.

- ✓ **Downing.**—Very popular; large pale green, good quality; bush vigorous, hardy, prolific. The fruit hangs in thick close rows. It bears abundantly, is hardy, requires but little attention, continues for almost a life-time.
- ✓ **Red Jacket.**—A true native and one of the finest American Gooseberries; rivaling the largest English varieties in quality and size of berry; and excelling them by far in vigor of growth and freedom from mildew. The plant is of vigorous growth, with bright, clean foliage. It is very hardy and a wonderful cropper. The fruit is large, smooth, of a rich, ruby red and of fine quality.

Downing

HORSE RADISH—SETS SIX INCHES.

Bohemian.—Finest and best of all Horse Radish.

Price.—25c per 10; \$1.00 per 100; \$7.50 per 1000.

CURRENTS

Our list includes the best only in each class.

Prices. (Except Perfection.)—1 year, 10c each; 75c per 10; \$6.00 per 100.
2 year, 15c each; \$1.25 per 10.

Wilder.—One of the strongest growers, and most productive. Bunch and berries very large, bright, attractive red color. Compared with the celebrated Fays, is equal in size, with longer bunch, better in quality, with much less acidity and fully as prolific.

Fays Prolific.—Color, rich red. As compared with the Cherry Currant, Fays Prolific is equal in size, better flavor, with much less acid.

North Star.—This currant is remarkably vigorous growth and wonderfully prolific; the stems of the fruit thickly set, average four inches in length.

White Grape.—Very large, yellowish white, sweet or very mild acid, excellent quality and valuable for the table; the finest of the white sorts. Very productive.

Cherry.—Large, red; bunch long; of great beauty and excellent quality. One of the oldest and best.

ASPARAGUS

Prices	Per 100	Per 1000
3 year.....	\$1.00	\$8.00
2 year.....	.75	6.00

For garden culture, plant in beds two feet apart each way; for field culture, make five feet apart and plant two feet apart in rows. Set root six inches below the surface, covering but two inches deep at first, and filling in after the plant has pushed forth, by degrees, the first season as you continue to cultivate. The size and earliness are always proportionate to the amount of manure applied.

Palmetto.—It is an improvement on Conover's in that it yields a much heavier crop, fully as large and of much more even and regular size. It is fit for use nearly a week before Conover's. Best variety for all purposes.

ORNAMENTAL TREES

American White Ash.—A native tree of quick growth, with massive trunk and broad spreading limbs, valuable for shade and street planting.

Price.—5 to 6 feet, 50c each; \$4.00 per 10.

European Mountain Ash.—A fine, hardy tree with a dense head of very attractive compound of leaves. Bears white flowers in May and is covered with showy clusters of red berries from July to frost.

Price.—5 to 6 feet, 50c; \$4.00 per 10.

Cut-leaved Weeping Birch.—Beyond question one of the most popular of all weeping or pendulous trees. Its tall, slender, yet vigorous growth, graceful drooping branches, silvery-white bark, and delicately cut foliage, present a combination of attractive characteristics rarely met within a single tree.

Price.—5 to 6 feet, \$1.50 each.

Catalpa Bungei. (Umbrella Tree, Japan.)—One of the most attractive of trees which, when better known, will certainly be in great demand for lawns and all ornamental grounds. It forms a perfect half-globular or umbrella head, with foliage of a deep green color, with great precision and making a beautiful roof of leaves upon which the light plays with delightful effect, making one of the finest trees that can be planted on a lawn or for a shade tree.

Price.—Extra large heads and straight stems, \$1.50 each.

Catalpa Speciosa.—Very rapid growers. Large heart-shaped downy leaves compound panicles of white flowers tinged with violet and dotted with purple and yellow.

Price.—6 feet, 40c each; \$3.00 per 10.

Red Flowering Dogwood.—A rare specimen of the common White Dogwood which it resembles except in flowers, which are of a beautiful shade of pink.

Price.—2 feet, \$1.25 each.

Schwedlers Maple.—A beautiful variety, with young shoots and leaves of a bright purplish and crimson color, which changes to a purplish green. One of the most valuable trees of recent introductions.

Price.—8 feet, \$1.00 each. Very fine stock.

Catalpa Bungei.

Norway Maple

Oriental Plane.—A popular shade tree in Europe. Does well for a similar purpose here. Not subject to blight like the native Sycamore. Makes a large spreading tree. Rapid grower. Succeeds well in either high or low situations.

Prices—

8 feet, 75c each; \$6.00 per 10.
9 to 10 feet, \$1 each; \$7.50 per 10.

Lombardy Poplar.—Attains a height of from 100 to 150 feet. Well known and remarkable for its erect, rapid growth, and tall, spiral form. Indispensable in landscape gardening, to break the ordinary and monotonous outlines of most other trees.

Price.—8 to 10 feet, 60c each; \$5 per 10.

Sugar Maple.—(Rock Maple.)—A well known native tree of elegant pyramidal form. Its stately growth, fine form and foliage make it desirable as an ornamental and shade tree. Especially valuable as an avenue tree.

Prices.—8 to 10 ft., \$1 each; 10 to 12 ft., \$2 each; 12 to 14 ft., \$3.00.

Pussy Willow.—Valuable for winter, forcing of its twigs.

Price.—4 to 5 feet, 35c each; \$3 per 10.

Norway Maple.—A large, handsome tree of spreading rounded form, with broad, deep green, shining foliage. Its compact habit, and strong vigorous growth render it one of the most desirable species for the street, park or garden.

Prices.—7 to 8 feet, 75c each; \$6.00 per 10; \$50.00 per 100.

8 to 9 feet, \$1.00 each; \$10.00 per 10.

9 to 10 feet, \$1.50 each.

10 to 12 feet, \$2.50 each.

Elm, American.—A noble tree, of strong, rapid growth; lofty, sweeping branches of great elegance and grace, the finest of all shade trees. Suitable for street or lawn planting.

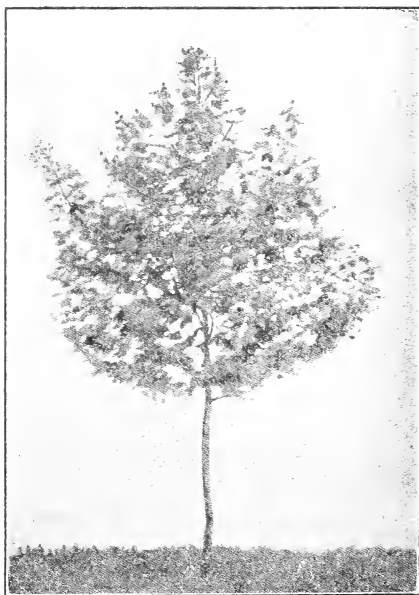

Price.—8 feet, 50c each.

Horse Chestnuts, White Flowering.—A very beautiful, well known tree, with round dense head, dark green foliage and an abundance of showy white flowers in the early spring.

Price.—5 feet, 75c each.

Horse Chestnut, Red Flowering.—Identical in growth to the white flowering with flowers and buds of showy red. Blooms a little later than the white flowering.

Price.—4 feet, 75c each.

Oriental Plane

Globe Headed Mulberry.—A new variety. A very hardy tree with a beautiful round head, growing from the top of straight body.

Price.—Good heads, \$2.00 each.

MAGNOLIAS

Magnolia Conspicua. (Chinese White.)—Low tree, the flowers of which appear before the leaves. This variety is covered in May with masses of snow-white lily-like flowers.

Prices.—Balled, 2½ feet, \$2.00 each.

Magnolia Soulangeana.—In habit it closely resembles Conspicua, shrubby and branching while young, but becoming a fair sized tree. Flowers white and purple, cup-shaped, 3 to 5 inches in diameter.

Prices.—Balled, 4 feet, \$2.00 each.

M. Soulangeana Nigra.—A very rare variety of vigorous and robust growth; flowers large, very dark, velvety purple, almost black; a free bloomer; a most beautiful and desirable variety. Distinct from any other sort.

Price.—2 feet, \$2.00 each.

M. Stellata. (Halleana.)—Starry Magnolia. Of dwarf habit. Flowers semi-double, pure white and fragrant. Blooms two weeks earlier than other magnolias.

Price.—2 feet, \$2.00 each.

Magnolia Lennei.—A beautiful symmetrical tree, of extreme hardiness, blooming just after the Soulangeana. Flowers are very dark purple, of fine shape and form.

Price.—Balled, 3 feet, \$2.00 each.

JAPAN MAPLES

Japan Maple.

These dwarf Maples with their great variations in coloring and shaping of foliage make them extremely attractive in all landscape work. Either as specimens or in groups they develop into magnificent ornaments to any lawn.

They will do well even in partial shade and need no protection.

Prices.—Balled specimens Japonicum and Aureum 12 inch at 2 to 3 feet prices and 15 inch at 3 to 4 feet price. All others at full size for grades.

Price.—2 to 3 feet, \$1.50 each; \$4.00 per 3; Balled.

3 to 4 feet, \$2.00 each; \$5.00 per 3. Balled.

Japonicum Aureum.—Shaded with gold and slashes of green. Contrasts beautifully with other shrubbery. Very dwarf habit and should be on the outside of all groups.

On above two varieties 12 inch size at same prices as 2 to 3 ft. of other kinds and the 15 inch size corresponds with the 3 to 4 feet kinds.

Atropurpureum.—The well known deep blood red variety. Foliage is deeply cut and although at first, it gets quite green during the summer, when fully established it retains the red the entire season.

Atropurpureum Dissectum.—A decidedly weeping variety that forms an immense umbrella-like head. Leaves are cut like a fern and while young are flesh pink, becoming dark red on the older plants.

Oshiu Beni.—Deeply cut, dark red foliage that retains its color well.

RHODODENDRONS

The **Rhododendron** is the showiest and most magnificent hardy evergreen shrub that grows. In early summer there are no flowers more gorgeous than these. They are simply a solid mass of rich colored bloom.

When massed or grouped they impart a distinguished look to any place. They are beautiful not only during blossoming time but their grand foliage of dark glossy green is admired during the summer and in winter which gives a beautiful tone to the general effect.

They will do well in any moist soils free from limestone. The ground should be dug to a depth of two feet or more and mixed with one third well rotted manure. Keep the top soil loose and well mulched and during dry weather water should be applied to get the best results. Use no lime or soil or fresh manure.

The varieties are selected because of their foliage and number of buds and general form of plant from the hardiest of the best Hardy Hybrids.

Do not confuse our stock with the cheap Department Store offerings that are mostly, not hardy vines.

Prices.—Grafted, named hardy hybrid varieties, packed with ball of earth. 15 to 20 buds, 2 to 2½ ft., each \$2.00; per 3, \$5.00; per 10, \$15.00.

Well budded, 1½ ft., \$1.50 each; per 3, \$3.75; per 10, \$10.

Every plant will bloom this year and next year too, if you will give them care.

VARIETIES

Album Elegans.—A vigorous grower, with light blush flowers, changing to white prettily marked with straw color.

Album Grandiflorum.—A very delicate pink, fading to a white, good grower, having fine foliage and blooming freely.

Album Novum.—A rather strong growing variety with a great amount of fine foliage. Flower is a light pink changing quickly to white.

Boule de Neige.—A very dwarf variety especially adapted for outside row of beds. Is very compact and of dense foliage. Flowers large, almost pure white, early and in immense trusses. **This variety if ordered alone at 20 per cent above listed prices.**

Caractacus.—A good grower that blooms early and freely. Is a rich crimson tinged with purple.

Catawbiense Album.—One of our finest white varieties, is rather dwarf and very bushy with dense, fine foliage, in color it is almost pure white, having but a slight tinge of pink early and free flowering.

Catawbiense Grandiflorum.—An improvement on our native variety, flowers large, of a rich rosy purple. Plant is extremely hardy and handsome throughout the whole year.

Charles Dickens.—Plant is of fine habit and form with splendid foliage. A fine variety with beautiful deep scarlet flowers borne in large, round trusses.

Delicatissimum.—Very hardy with large glossy leaves. Blooms quite late in the seasons and flowers are of most delicate shade of flesh pink, very attractive.

Everestianum.—Considered to be the hardiest and best in habit of all the hybrids. The flowers are borne in great profusion and are of delicate rosy lilac spotted with yellow in finely formed trusses.

H. H. Hunnewell.—This variety has fine foliage and grows rather tall. It produces large beads of deep, velvety crimson flowers.

Lady Armstrong.—This is one of the hardiest varieties. Flowers pale and delicate shade of rose, beautifully spotted.

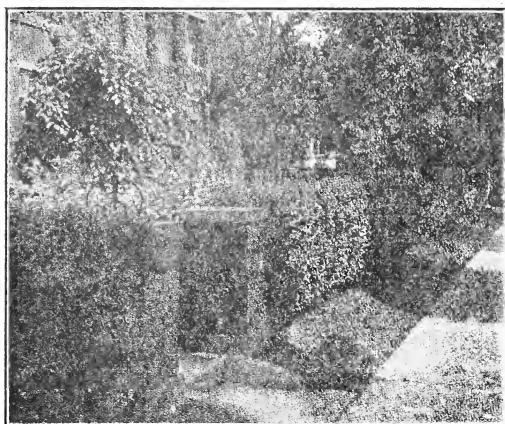

Lady Grey Egerton.—A very distinct variety in coloring. Hardy, fine form and foliage. Flowers are large, of a wonderful silvery blush, very attractive.

Mrs. Milner.—A free flowering and compact growing variety with excellent foliage. Flowers are in dense round trusses of rich crimson.

Kalmia Latifolia. (*Mountain Laurel or Calico Bush.*)—Of all the broad leaf evergreens this is one of the handsomest both in flowers and foliage. The leaves are broad and of a beautiful glossy green. The flowers are produced in large showy clusters at the terminals. The color is rosy pink with spots of rich and velvety reddish brown. Very desirable for planting either alone or with Rhododendrons or Azaleas. Our stock is nursery grown and balled.

Price.—2 ft., with buds that will bloom this year, \$1.50 each; \$4 per 3.

HEDGING

California Privet

tack it, and it never grows dull, but holds its beautiful green foliage throughout the season

California Privet.—The best known and most popular hedge plant and one that it will be hard to supplant.

It is a vigorous grower everywhere and even in cities where nothing else will survive it stands up well and for seashore planting it has no competitor at all. An exceedingly beautiful shrub. Very vigorous and hardy; form pyramidal; foliage deep green, bright and glossy. Decidedly the finest and best of all plants for forming an ornamental hedge, its foliage being so abundant as to produce a wall of the deepest, richest green imaginable. It is almost an evergreen, the leaves remaining on the branches nearly all winter. Insects never at-

Norway Spruce.—When sheared the most compact screen and wind-break of all the evergreens.

Prices.—18 inches, \$2.00 per 10; 2 to 3 feet, \$4.00 per 10.

Berberis Thunbergi.—One of the most effective plants in autumn, after most other deciduous shrubs are bare. Its small oval leaves then assume superb crimson hues, and the slender branches droop beneath their load of bright red berries, which hang on until late in winter; new and desirable.

Prices.—12 to 15 inches, 15c each; \$1.25 per 10; \$7.00 per 100. 15 to 18 inches, 20c each; \$1.50 per 10; \$10.00 per 100. 18 to 24 inches, 25c each; \$2.00 per 10; \$15 per 100.

HARDY SHRUBS

Prices.—(Except where otherwise marked.)—Transplanted, 30c each; 75c for 3; \$2.25 per 10.

Althea, Variegated Leaf.—A conspicuous variety, with foliage finely marked with light yellow. Flowers double purple. One of the most valuable variegated leaved shrubs.

Althea, Rose of Sharon.—In assorted varieties and color. 3 year strong.

Berberis Thunbergi.—A beautiful drooping small leaved shrub that is becoming exceedingly popular. In the fall it is covered with bright colored foliage and masses of red berries; fine round specimens.

Crataegus Oxycantha, (English Hawthorne.)—Sweet, single white flowers and pretty foliage. 18 to 30 inches.

Deutzia Pride of Rochester.—Profuse bloomer, double white, 18 to 24 inches.

Forsythia Viridissima.—A fine hardy shrub, bright yellow flowers, blooms early; 2 to 3 feet.

Ligustrum Regelianum, (Regel's Privet.)—A dense shrub with spreading branches that are twiggy and droop gracefully. Valuable for shrubbery borders, masses and low hedges. Very hardy.

Hydrangea Paniculata Grandiflora.—A fine shrub growing from 6 to 8 feet high but can be kept pruned to a low bush. Very showy from July to September with white flowers changing late in season to tints of pink and red. The most popular and finest of all the well known shrubs.

Prices.—(Extra fine transplanted.)

18 to 24 inches, 20c each; \$1.75 per 10.

2 to 3 feet, 25c each; \$2.25 per 10.

3 to 4 feet, 30c each; \$2.75 per 10.

Tree form good heads, 2 foot stem, 60c each.

2 year transplanted, 20c each; \$1.50 per 10.

Spirea Anthony Waterer.—Dwarf, constant bloomer, crimson flowers. 3 year.

Stephanandra Flexuosa.—White flowers in great profusion, 3 to 4 feet.

Syringa Vulgaris, (Common Lilac.)—Purple, 4 feet.

Syringa Vulgaris Alba, (Common White Lilac.)—White, 12 to 18 inches

Syringa Vulgaris, (Grafted Varieties.)—Several varieties, 18 to 24 inches.

Viburnum Plicatum, (Japan Snowball.)—Has a very rich, deep green foliage, of handsome form and beautiful globular heads of pure white flowers, quite distinct from those of the common sort. One of the best ornamental shrubs. 2 feet, 30c each; \$2.50 per 10.

Weigela Eva Rathke.—New, free bloomer, reddish purple.

Weigela Candida.—Pure white.

Weigela Rosea.—Beautiful pink and profuse bloomer.

EVERGREEN VINES

Euonymus Radicans.—An evergreen with small glossy green leaves that is particularly adapted to covering foundations of house. It clings to stone, brick or stucco and being a slow grower makes a beautiful covering. By clipping and shaping it can be used like Box edging.

Price.—3 year, field grown, 15c each; 3 for 40c; 10 for \$1.00.

Euonymus Radicans Variegatus.—The same as the above except in foliage which is variegated by stripings of creamy white.

Price.—3 year, field grown, 15c each; 3 for 40c; 10 for \$1.00.

Hedera Helix.—(*English Ivy*.)—Used extensively to cover brick and stone walls, and edifices of these materials. Small leaved dark glossy vine that is evergreen.

Price.—30c each; \$2.50 per 10.

HARDY VINES AND CREEPERS

Wisteria

Wisteria Sinensis.—It grows very rapidly and blooms profusely. The flowers are a beautiful shade of blue, hanging on graceful pendulous clusters. **Price, 25c each.**

Wisteria Sinensis Alba.—The white variety of the above class. **Price, 25c each.**

Wisteria Magnifica.—Flowers in dense, drooping racemes, of a pale lilac color.

Price.—25c each.

CLEMATIS

(Hardy Hybrid Large Flowering.)—These beautiful and attractive vines cannot be excelled when brilliant color effects are desired. They are invaluable for porch and trellis.

Jackmani.—Very popular; intense violet color.

Price.—60c each.

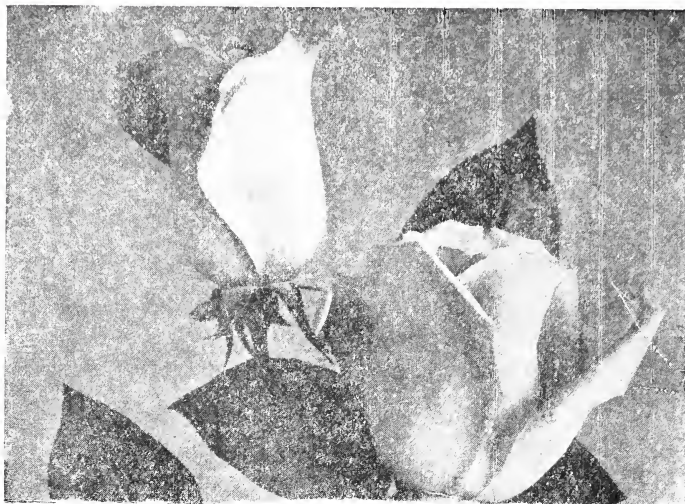

Clematis Paniculata.—The flowers are pure white, borne in large clusters, converting the plant into a perfect mass of white.

Price.—25c each.

Madame Edouard Andre.—Flowers large, of a beautiful bright velvety red, very free flowering, and a continuous bloomer.

Price.—60c each.

ROSES

Roses, to us are the most desirable of all flowers. They repay you handsomely for extra care and attention but will do well in any sunny well drained place that is made rich enough and kept cultivated.

The plants that we offer are on their own roots and two year old dormant stock that, with proper handling, will grow and produce bloom the first year.

We offer only such varieties as are hardy enough to withstand your winters provided you give them the moderate protection that any everblooming rose requires. We could sell you roses for 50 per cent lower price by giving you budded or smaller plants but prefer to sell you fewer plants rather than give you something inferior.

Planting.—Never use chicken or stable manure nor fertilizer nor bone-dust near the roots. When the plants reach you the ground should be ready for planting at once. The sooner they are planted the better they will do for you. When ready to set, take them from the package and soak top and roots in water that is slightly warm an hour or more, then prepare a rather stiff puddle of fresh cow-manure or clay and dip the roots when the hole is ready.

Varieties.—We offer the best Hybrid Perpetuals (marked H. P.) which bloom their great crop in June and only scattering blooms afterward, their beauty is in the great masses of buds and blooms; Baby Ramblers, which are bedding roses not of much value for cutting but in masses are always full of bright bloom; Hybrid Teas and Hardy Teas (marked H. T.) that are almost constant bloomers and are particularly valuable for cutting, being beautiful in bud and exceedingly fragrant; and Climbers for trellis, fence and wall coverings.

The Climbing H. T. (marked Cl. H. T.) varieties are not true climbers merely extra strong growing types of the Hybrid Teas.

SPECIAL VARIETIES

Price.—50c each; \$4.00 per 10.

Harry Kirk. (H. T.)—Sulphur-rose color.

Kaiserin. (H. T.)—White with lemon center.

Ophelia. (H. T.)—Brilliant salmon pink.

Sunburst. (H. T.)—Golden orange.

Climbing Sunburst. (Cl. H. T.)—Tall growing Sunburst.

One each of the above varieties for \$2.00 by express. By parcel post for \$2.10.

GENERAL LIST

Price.—By express, 40c each; 3 for \$1.00, 10 for \$3.00.

By parcel post, 45c each; 3 for \$1.10; 10 for \$3.25.

American Beauty. (H. P.)—Rich crimson.

Antoine Revoire. (H. T.)—Rosy flesh on yellow ground with a border shaded carmine.

Bessie Brown. (H. T.)—Flesh white and pink.

Climbing Etoile de France. (H. T.)—Tall growing Etoile de France. Beautiful red rose.

Climbing Kaiserin. (H. T.)—Tall growing Kaiserin. The finest of all roses.

Crimson Queen. (H. T.)—Rich, bright velvety crimson. Flowers large and full.

Etoile de France. (H. T.)—Rich velvety crimson, center rich ruby red.

Frau Karl Druschki. (H. T.)—Pure snow white. Blooms constantly, a strong grower.

Gen'l. Jacqueminot. (H. T.)—Brilliant scarlet crimson, commonly called General Jack.

Gen'l. MacArthur. (H. T.)—Rich deep crimson scarlet. The hardest of all the Hybrid Teas.

Helen Gould. (H. T.)—Bright watermelon red.

Jubilee. (H. T.)—Velvety maroon and crimson.

Killarney Brilliant. (H. T.)—Brilliant deep pink.

An improved and brighter Killarney.

Killarney Pink. (H. T.)—Well known Killarney, shell pink. Long pointed buds, large flowers.

Killarney White. (H. T.)—A true Killarney bud that is white and as fine formed as the pink.

La Detroit. (H. T.)—Dainty shell pink, creamy outer petals. Strong, hardy everbloomer.

La France. (H. T.)—Bright satin pink, silvery reflex, of fine fragrance and a good grower.

Maman Cochet. (H. T.)—Silver rose shaded buff and salmon. A fine cutting rose.

Madame Abel Chateaufort. (H. T.)—Rich rosy carmine. Flowers full, double and deep.

Madame Jenny Gillemor. (H. T.)—Saffron yellow with gold. Buds beautifully formed.

Madame Pernet-Ducher. (H. T.)—Canary yellow with deep center. One of the best.

Mrs. John Laing. (H. P.)—Satin pink, hardy and vigorous. Buds pointed, plant vigorous.

Prince Camille de Rohan. (H. P.)—Deep velvety crimson maroon. The darkest rose.

White Maman Cochet. (H. T.)—Pure white with blush tint. A fine outdoor rose.

TRUE CLIMBING ROSES OR RAMBLERS

Crimson Rambler.—The well known crimson variety. Free flowering and a strong grower.

Everblooming Crimson Rambler.—Brilliant everblooming crimson. Blooms continuously.

Dorothy Perkins.—Beautiful shell pink for fences and walls nothing equals this rose.

Excelsa.—A brilliant crimson scarlet Dorothy.

Prices.—2 year, dormant. 35c each, \$3.00 per 10.

EVERGREEN SHRUBS

ANDROMEDA

Floribunda.—A low compact evergreen with great number of small dark green leaves that are channelled and hairy along edges. Branches and leaf stalks are dull red and hairy. Flowers are white in dense panicles that resembles Lily-of-the-Valley. Hardy.

Japonica.—Is a little higher than Floribunda but remains very compact in form. Branches and leaves are quite smooth. Leaves are narrow and toothed. Buds are dull red and flowers open white and wax-like in the spring. Very desirable for edging for Rhododendrons and other shrubbery. Does well in shady places.

Price.—12-inch, 75c each; \$2.00 for 3.

AZALEA

Amoena.—One of the most beautiful flowering evergreen shrubs we have to offer. It is a low growing bushy plant that is perfectly hardy. The hairy bronze tinted foliage make a fine appearance in the fall and winter. In the early spring it is covered with flowers of a bright rosy purple.

Prices	Each.	Per 3
6 to 8-inch.....	\$.75	\$2.00
8 to 10-inch.....	1.10	3.00
10 to 12-inch.....	1.50	4.00

Azalea Hinodegiri.—A bright scarlet flowering variety of Amoena.

Price.—10 to 12 inches, \$1.50 each.

Azalea Kaempferi.—Taller than the above. Dull beautiful dark red.

Price.—12 to 15 inch, \$1.50 each.

BOX

Sempervirens.—The bush form that is so popular at present. Foliage is glossy and aromatic. Can be clipped to any shape. Our stock is very fine.

Prices.—Bush form, 12 to 15 inches, at 50c each; \$1.25 per 3; \$3.75 per 10.

Pyramids, 2 1-2 ft., \$2.50 each; 2 for \$4.00.

Baby Standard, 15 inch crown, \$2.00 each. 2 for \$3.50.

MAHONIA

Aquifolium.—A low compact evergreen shrub with broad prickly leaves covered on under side with brownish hairs. Flowers are of bright yellow. A very desirable plant to use with Azalea Amoena and Ilex Glabra.

Price.—12 to 15 inches, 25c each; 3 for 60c; 10 for \$1.75.

CONIFEROUS EVERGREENS

(Cone-bearing Evergreens)

Evergreens have their place in every lawn. As specimen trees they give a distinguished tone. In clumps or by massing they form backgrounds and screens both in summer and winter.

The deciduous shrubs need them in winter and no landscape work is complete without a judicious use of evergreens.

The trees we offer are well rooted and every tree is balled unless otherwise stated.

The list is made up of the hardiest and best for the middle Atlantic and adjoining states.

ABIES. (The Firs)

Abies Concolor. (Silver Fir.)—One of the hardiest evergreens withstanding the most severe winters in New England. The trees grow rapidly and is of stately and graceful form. Foliage is large and broad of silvery green. It bears few cones of purple and yellow.

Price.—3 feet, \$2.50; 2 feet, \$1.50.

Abies Concolor Violacea Glauca. (Blue Fir.)—This is of the same form and habit as the above but has blue foliage rivaling the well known Koster's Blue Spruce and preferred by many. Cones violet.

Price.—3 feet, \$2.50; 2 feet, \$1.50; 1 foot, \$1.00.

Abies Cilicica. (Cilician Fir.)—Tree is of slender growth with narrow and very dark green foliage. The young growth is very handsome. As specimens it is very beautiful and striking.

Prices.—2 feet, \$1.50; 1 foot, 75c.

Abies Nobilis Glauca. (Noble Silver Fir.)—Tree is erect, dense with horizontal branches of imposing appearance. Foliage is wide, dark bluish green with silvery undersurface. One of the very finest of the hardy evergreens.

Price.—2 feet, \$2.00; 1 foot, 75c.

Abies Nordmanni. (Nordmann's Fir.)—Thick, dense tree of fine proportions. The needles are wide, dark green and lustrous, with a silvery undersurface that sparkles in the sun. This is one of the prettiest and best evergreens. We endorse it fully as the most striking tree in our collection.

Price.—4 feet, very broad, \$2.00 each.

Abies Veitchii. (Veitch's Silver Fir.)—A very beautiful hardy species that is rare and especially desirable as a specimen tree of slender and graceful form.

The needles are of glossy green with undersurface of silvery white that glistens in the sun and will attract instant attention in the largest collection of varieties.

Prices.—1 foot, \$1.00.

BIOTA

Biota Orientalis. (Chinese Arbor Vitae.)—Foliage of dark green color. A very dense pyramidal tree that is more valuable than our American Arbor Vitae because of its more delicate and darker foliage and denser growth.

Price.—1 1-2 ft., 75c; 1 ft., 50c.

Biota Aurea Nana. (Berkman's Golden Arbor Vitae.)—A dwarf dense golden variety that will attract attention and admiration above anything in the nursery or on the lawn. It is usually as broad as tall and is the best of the golden or dwarf evergreens.

Price.—20 to 24-inch, \$2.50.

CUPRESSUS. (Cypress)

Cupressus Lawsoniana. (Triomphe de Boskoop.)—A beautiful distinctive evergreen with prominent foliage of beautiful bluish green foliage that droops slightly at the tips.

Price.—3 ft., \$1.25; for fine pruned specimens.

JUNIPERUS

(Junipers, commonly called Cedars)

Juniperus Sinensis. (Chinese Juniper.)—One of the best and hardiest of evergreens that will do well on most all soils and under all conditions.

It is pyramidal in form, stands pruning well and has dense silver green scale-like foliage. Very desirable.

Price.—2 ft., \$1.00; 1 ft., 50c.

Juniperus Communis Hibernica. (Irish Juniper.)—A very erect beautiful dense tree. Even the branch tips are erect; leaves are of a deep green.

Price.—3 ft., \$1.00.

Juniperus Communis Suecica. (Swedish Juniper.)—Tree is an upright grower with light green leaves, compact and with spreading foliage; branch tips droop; very fine.

Price.—2 ft., \$1.00; 1 ft., 50c.

Juniperus Japonica Aurea. (Golden Japan Juniper.)—A very distinct and attractive bush with beautiful golden foliage that clings very close to the branches which are slightly spreading. A mass of gold in summer and winter.

Price.—2 ft., \$1.25; 1 ft., 60c.

Juniperus Communis Oblonga Pendula.—Upright and rapid grower with pendulous terminals; foliage slender pale green; very popular.

Price.—3 ft., \$1.25.

Juniperus Canadensis Aurea. (Golden Juniper.)—A very low growing bush that is one of the best of the yellow evergreens; the color is solid and the bush is hardy and permanent.

Price.—1 foot, 75c; very broad.

Juniperus Sabina. (Compact Savin Juniper.)—A low growing, bushy, deep green variety with half erect branches.

Price.—3 ft., \$2.00; 2 ft., \$1.25; 1 ft., 50c.

Juniperus Sabina Tamariscifolia. (Gray Carpet Juniper.)—A trailing broad top variety with beautiful green needle shape leaves; the most pleasing of the trailing evergreens.

Price.—2 ft., broad head, \$1.50; 1 ft., 75c.

Juniperus Sinensis Pfitzeriana.—A very hardy spreading silvery green variety. Very feathery in appearance, rather rare and very ornamental.

Price.—2 ft., \$1.50; 1 foot, 75c.

Juniperus Virginiana Schottii.—A fine, hardy evergreen of pyramidal habit with feathery light green foliage. Price.—1 foot, 75c.

PICEA

Picea Excelsa. (Norway Spruce.)—The well known rapid growing variety that does well everywhere. If untrimmed it becomes a wide spreading magnificent tree but by pruning can be used as a close hedge for windbreaks and screens.

Prices—Not balled.	Each.	Per 10.	Per 100
15 to 18-inch.....	\$.25	\$2.00	\$12.00
2 to 3 feet.....	.40	3.00	25.00
3 to 4 feet.....	.75	6.00	

Picea Excelsa Inverta.—A species of Norway Spruce that grows its branches downward and to which the foliage clings as closely as possible.

Price.—3 feet, \$1.25 each.

Picea Orientalis. (Oriental Spruce.)—A low, slow growing tree with spreading branches close to the ground.

The foliage is short, shiny and dark green. One of our best evergreens for specimens and groups.

Price.—2 ft., \$1.50; 1 ft., 75c.

Picea Pungens Glauca Kosteri Compacta. (Koster's Blue Spruce.)—The bluest of all evergreens and the one that is best known. It makes beautiful specimens because of its striking color, uniform shape and dense foliage.

Prices	Each.	Prior 3.	Per 10.
1 1-2 foot.....	\$1.25	\$4.00	\$10.00
2 feet.....	2.00	5.50	17.00
3 feet.....	3.00	8.00	
4 feet.....	4.00	10.00	

Picea Orientalis Pygmaea.—A very dense dwarf form of the above. A beautiful tree.

Prices.—18 to 24 inches, \$2.00; 12 inches, \$1.25.

Picea Polita.—This is a very distinct pyramidal tree with light green, round, rigid and incurved thick needles.

Prices.—2 ft., \$1.50; 1 foot, \$1.00.

DOUGLAS SPRUCE

Pseudotsuga Douglasi.—The tree is very similar to the spruces, being very symmetrical and regular in form. It is a rapid grower and is becoming more popular as it is better known.

Prices.—2 ft., \$1.25; 1 foot, \$1.00.

RETINOSPORA.

Ret. Filifera.—A bushy and broad evergreen with thread like foliage of a weeping tendency and bright green color. Very fine for groups and masses.

Prices.—2 ft., \$1.25; 1 foot, 75c.

Ret. Filifera Aurea.—Very similar in form and habit to the above but the foliage is a beautiful golden color.

Prices.—2 ft., \$2.00; 1 foot, \$1.00.

Ret. Obtusa Gracilis.—A dark green evergreen with frond like foliage of weeping habit. Very fine for groups.

Prices.—2 ft., \$1.50; 1 foot, 75c.

Ret. Obtusa Gracilis Aurea.—A golden leaved variety of the above, slightly more dwarf in growth and very beautiful.

Prices.—2 ft., \$1.50; 1 foot, 75c.

Ret. Obtusa Leptoclada.—A compact, dark green symmetrical dwarf evergreen that bears bluish berry-like fruits; very attractive.

Prices.—2 ft., \$1.50; 1 foot, 75c.

Ret. Obtusa Nana.—Very dwarf, foliage is shining green in flattened masses, one above another. It seldom reaches 3 feet in height and is the best dwarf evergreen we have.

Price.—2 ft., \$2.00; 1 foot, \$1.00.

Kostors Colorado Blue Spruce

Ret. Obtusa Nana Aurea.—Similar to above but the foliage is yellow during the whole year.
Price.—12 to 15 inch, \$1.00.

Ret. Pisifera.—A very shapely and distinct variety with light green foliage and slender graceful branches, one of the very best.

Prices.—2 ft., \$1.00; 1 foot, 60c.

Ret. Pisifera Aurea.—A bright golden variety that makes beautiful contrast with others in groups and masses.

Prices.—2 ft., \$1.25; 1 foot, 75c.

Ret. Plumosa Aurea.—The most popular of all the golden evergreens. It is low branched and a vigorous grower. Especially valuable for contrast masses and small lawns.

Prices.—2 ft., \$1.00; 1 foot, 60c.

Ret. Squarrosa Veitchii.—A beautiful variety with bluish green foliage that is spreading and prickly; very dense grower, feathery and attractive.

Prices.—3 ft., \$2.00; 1 1/2 ft., \$1.00.

SCIADOPITYS

Sciadopitys Verticillata. (Japan Umbrella Pine.)—A very rare and beautiful tree for specimen planting. The leaves are very long, wide and thick and are arranged in whorls of 15 to 25. The color is of lustrous deep green. The terminals of the branches are like inverted umbrella ribs.

Price.—12 to 15 inches, \$1.00.

THUYA. (Arbor Vitae)

Thuya Occidentalis. (Common American Arbor Vitae.)—Well known by its universal use as a hedge or screen.

Prices.—

Balled, Extra fine.	Each.	Per 3.	Per 10.
2 1-2 to 3 ft.....	\$1.50	\$4.00	\$12.00
2 to 2 1-2 ft.....	1.00	2.50	7.50
12 to 15 in.....	.35	1.00	2.50

Thuya Occidentalis Pyramidalis.—A fine attractive pyramidal tree with beautiful shining dark green foliage. The finest of all the Arbor Vitae class.

Prices.—2 ft., \$1.50; 1 foot, \$1.00.

Thuya Occidentalis Vervaeana.—A hardy attractive evergreen with quite slender branches and more compact than others of its class; foliage is yellowish in summer and bronze in winter.

Prices.—3 ft., \$1.50; 2 ft., \$1.00; 1 foot, 60c.

Thuya Plicata Pygmaea.—A dwarf slow growing dark green evergreen that is not so formal as many others.

Prices.—1 1/2 to 2 ft., \$1.25; 1 foot, 75c.

TSUGA. (Hemlock Spruce)

Tsuga Canadensis. (Common Hemlock.)—A handsome evergreen with slender branches that weep slightly. As specimens with proper shearing it can not be excelled by any other formal green tree. As a hedge or screen it is compact and beautiful.

Prices.—

Transplanted.	Each.	Per 3.	Per 10.
2 to 2 1-2 ft. sheared...	\$1.25	\$3.00	\$8.00
2 1-2 to 3 ft. extra fine...	1.50	4.00	10.00

Tsuga Canadensis Sargentii Pendula.—A rare and beautiful broad specimen of graceful, permanent, weeping habit; showing a slight blue in the foliage; compact and rather slow grower.

Prices.—1 1/2 to 2 ft., \$2.50; 1 foot, \$1.25.

GUARANTEE AND CONDITIONS OF SALE

We have no connection whatever with any other nursery, and our responsibility extends only to persons purchasing direct from us. We also disclaim any responsibility for failure arising from defective planting, or from subsequent faulty treatment or cultivation, and we are not in any respect responsible for any loss or damages arising from any failure therefrom.

While we exercise the greatest care to have all trees, shrubs and plants sold by us true to name and free from disease, and hold ourselves prepared to replace, on proper proof, all that may prove to be otherwise, we do not give any warranty, expressed or implied, with respect to them; and all such goods are sold upon the express condition and understanding that in case any of them prove to be untrue to name, unhealthy or otherwise defective, we shall not be held responsible for a greater amount than the original price of the goods.

BUREAU OF STATISTICS AND INSPECTION

No. 7, 1918.

Trenton, N. J., September 2, 1918.

This is to certify that we have this 20th day of August, 1918, in accordance with the provisions of Chapter 268, Laws of 1916, State of New Jersey, inspected or caused to be inspected by a duly appointed Inspector the general nursery stock growing in the Village Nurseries of Joseph H. Black, Son & Co., Proprietors, at Hightstown, in Mercer County, New Jersey, and have found the same apparently free from San Jose Scale and other dangerously injurious insect pests and dangerously destructive plant diseases. We further certify that the nursery has a properly constructed equipment for fumigation with hydrocyanic acid gas.

This certificate expires June 1st, 1919, and covers only stock actually in the nurseries when examined.

THOMAS J. HEADLEE, State Entomologist,
 MEL. T. COOK, State Pathologist,
 HARRY B. WEISS, Chief Nursery Inspector.

NOTICE.—All claims for defective stock must be made at once upon receipt of same. Address all orders and communications to

JOS. H. BLACK, SON & CO.,

Hightstown, N. J.

LIME—SULPHUR, Concentrated Solution

As a spray material it is acknowledged by all to be the cheapest and best spray on the market.

As a winter and spring spray it not only destroys the San Jose Scale but other insects with which it comes in contact.

The eggs of the Tent Catapillar and Canker Worm, the larvel of the Codling Moth, and the Bud Moth are destroyed with any other insects that may be on the tree when sprayed. It also controls the Peach Lea Curl during the summer following the early spring spraying.

SUMMER

As a summer spray for Apples in connection with Either Nicotine or Arsenate of Lead it is unquestionably the best fungicide yet used.

DIRECTIONS FOR USE FOR

DORMANT SPRAYING

Use one part Lime-Sulphur to (9) nine parts water.

SUMMER SPRAYING ON APPLES ONLY

Use one part to 40 parts water.
